Greetings!

We are pleased to present a review copy of *One Light Coming: A Biker's Story (Book 3 in the Series)*. Available wherever books are sold in more than 150 countries, *One Light Coming* is distributed by the Ingram Book Company (www.ingrambook.com) and can be ordered through Amazon.com, BarnesandNoble.com and iTunes.

This is Edward Winterhalder's seventh book about the Harley-Davidson biker lifestyle. Co-authored by Marc Teatum, this book is a thriller, a murder mystery and a love story all rolled into one! Readers are taken on a tour of the outlaw biker community; to its rallies, inside its clubhouses, inside the lives and deaths of a nearly invisible part of American society as our hero falls for a beautiful woman only to get accused of her death. On the run, he gets lucky when a good looking pool shark, members of the notorious Skuldmen Motorcycle Club, and a Harley riding state trooper provide him with an opportunity to serve up a plate of justice, biker style. You don't have to ever thrown a leg over a bike to enjoy this adventure; you also don't have to have read the first two books in the series!

Edward Winterhalder is one of the world's leading authorities on motorcycle clubs and the Harley-Davidson biker lifestyle; his books are published in multiple languages and sold all over the world. He was a member, and/or an associate, of outlaw motorcycle clubs for almost thirty years. The creator and executive producer of the *Biker Chicz*, *PHASS MOB* & *Living on the Edge* television series, Winterhalder has appeared worldwide on television networks such as Bravo, Prime, CBC, Fox, National Geographic, History Channel, Global and History Television. In addition to his literary endeavors, he is a consultant to the entertainment industry for TV, feature film and DVD projects that focus on the Harley-Davidson biker lifestyle.

Marc Teatum lives in Massachusetts and was formerly an editor of *UPDATE*, the Massachusetts Motorcycle Association members magazine. He is currently working in the publishing industry as a content licensing manager. An avid Harley-Davidson enthusiast for more than twenty-five years, Teatum is active in motorcycle rights organizations in the Boston area.

By [R+](#) (USA) **This review is from: One Light Coming: A Biker's Story (Book 3 in the Series) (Hardcover)**

When I had this book delivered to my office, I made the mistake of opening it at my desk. I started to read it and could not wait to turn to the next page! I had to tear myself away, and was anxious the rest of the afternoon to get home and dive back to it.

It feels like each character in the book is a living breathing real person, each with their own history and personality. The biker culture is nicely woven into the storyline, but it is not only about leather and chrome (although that part is pretty darn cool too). It goes deeper, and shines light onto the brotherhood, the respect and the genuine pride that powerfully bonds bikers and their Families.

This is not your standard suspense/action/romance novel. It has punch. It has Umph. It has an attitude, with flames and skulls. And it will make you think about what true friendship, love, loyalty and freedom really are.

Now, through your leg over that bike, and enjoy the ride!

One Light Coming brings us into the life of Harley-riding Jake Axelrod, a carpenter who works hard and plays harder. When Jake gets a call from Karen—the love of his life, who broke his heart when she left him for a plastic surgeon—begging for his help, he is torn. Though he still cares for her Jake is reluctant to get involved, but does it anyway. While waiting on new ID to help Karen disappear, the two of them fall back into their old comfortable routine. At least until her husband shows up.

When Karen meets an untimely death, Jake is charged with her murder. Now on the run, Jake looks for help in dangerous places as he puts his life and freedom on the line to prove his innocence.

One Light Coming is a collaboration between veteran biker-author Edward Winterhalder and newcomer Marc Teatum. Reputed to have been in, or associated with, outlaw biker gangs Winterhalder uses his knowledge of the life to make an extensive contribution to the “Biker Fiction” genre. While Teatum makes his debut tapping into his love of Harleys and writing prowess. Though it’s their first time working together, the pair seem to have a collective cohesiveness that results in a well-rounded story.

Despite a few rough spots, Winterhalder and Teatum’s collaboration successfully crafts an interesting, action-packed story that moves forward at a steady clip. Protagonist, Jake Axelrod, is a well-developed and sympathetic character, despite his implied bad-boy image. A few well-placed twists provide unexpected jolts that keeps the tension high and the pressure on.

One Light Coming is an entertaining thrill ride through the biker life. No Harley required.

Not Just A Cool Biker Story

Have you ever seen a guy riding a motorcycle, geared up in leathers and a pair of sunglasses, maneuvering his roaring machine effortlessly against the wind? Most likely you have. If you thought that was cool, you will love this book. You will also be drawn to the depth of the characters, as they each carry their own story and reasons as to what made them choose to be who they are. This story is not only an exciting murder suspense that is fast paced and extremely well written with multiple story lines intercrossing. It will also make you realize that when life is not pretty or perfect, one can find the determination, strength and courage to choose to take action on what you believe in, and there will be others to help you through it.

A great read, a great ride.
